

In 1992, the predecessor of Jingyi Hardware, "Foshan Lianxing Hardware Factory", was founded (with a factory area of 1,500 square meters). It mainly engaged in the production of household hardware products, such as ironing boards, hardware iron frames, clothes drying racks, and iron-fabric wardrobes.

In 1994, the factory began to enter the international market in Europe, the Middle East, Asia and other parts of the world.

In 2000, the factory's area was expanded to 6,000 square meters. It gradually establishing household hardware products as factory's core strategic focus, concentrating on the clothing drying rack, and diversifying into various materials and styles.

In 2007, "Foshan Lianxing Hardware Factory" was officially renamed Foshan Nanhai Jingyi Hardware Products Co., Ltd. In the same year, the factory's area was expanded to 43,000 square meters. Two automated spraying systems and three assembly workshops were newly invested and built, which increased the daily production capacity by more than three times. Our product lines covered clothes airer, shoes rack, storage rack, etc.

In 2019, Jingyi Hardware Company began to strengthen brand building. It established domestic and foreign brand "tryviews", and explored the new e-commerce market.

Up to now, with the factory's continuous deployment of intelligent and digital manufacturing, it has achieved a daily output of over 20,000 finished products, and the product quality remains stably high. The export volume of the company's products continues to grow, and its product categories have expanded from clothes drying rack to storage racks, shoe racks, household ladders and other fields, steadily improving manufacturers' industrial chain layout.
